4

Remove reservoir from your pump and select Rewind.

5

Fill new reservoir and connect new tubing. Do not connect infusion set to body. Select **Next.**

6

Select and hold **Load** until checkmark appears on screen. Do not connect infusion set to body. When the checkmark appears, select **Next**.

Always read the instructions for use.

For detailed information regarding the instructions for use, indications, contraindications, warnings, precautions, and potential adverse events, please consult the device manual. For further information, contact your local Medtronic representative.

7

Remove white cap from the site connector. Select Fill and keep holding until there is no air in tubing and drops appear at the connector. Do not connect infusion set to body. Select Next after drops appear.

8

Insert new infusion set into body. Select Fill. Ensure Fill amount is 0.600U. Select Fill Now.

9

The reservoir and infusion set change is now complete.

Avoid reservoir and infusion set changes before bed.

Monitor glucose levels for 2 hours after changing infusion set
