Medtronic MiniMed 780G™ System changing the Extended™ Reservoir only

Select New Reservoir Only.

Disconnect tubing from body. Select **Next.**

Remove used reservoir from pump. Select **Rewind**. Place tubing on a clean surface for use later. Discard used reservoir. Select **Rewind**.

Fill new reservoir. Connect existing tubing to reservoir. Select **Next.**

Place new reservoir into pump and lock in place. Do not connect to body.
Select Next.

Select and hold **Load** until tick appears on screen. Do not connect infusion set to body. Select **Next.**

Avoid reservoir and infusion set changes before bed.

Check glucose levels for 2 hours after changing infusion set.

Select Fill until drops appear. Select Next.

Connect existing tubing to infusion set. Select **Resume Basal.**

The reservoir change is now complete
