¹Leanne was a participant in an Australian MiniMed™ 670G clinical study. The study was supported with a product grant from Medtronic Inc. The patient is a member of the Medtronic Patient Ambassador Program. This patient testimonial relates an account of an individual's response to the treatment. The account is genuine, typical and documented. However, the individual's response does not provide any indication, guide, warranty or guarantee as to the response other persons may have to the treatment. The response other persons have to the treatment could be different. Responses to the treatment discussed can and do vary and are specific to the individual patient. Please consult your healthcare professional for a full list of benefits, indications, precautions, clinical results and other important medical information that pertains to the therapy or products discussed. *Some user interaction required. **These offers are available until 26 April, 2019. Terms and conditions apply - if you cancel your subscription before completing the 6-month term, as applicable, you will be charged the full value of the rebate of your Guardian Link (3) transmitter. A sensor subscription entitles you to 1 box of Guardian Sensor 3 per month. Each box includes 5 sensors. Retail price of a box of Guardian Sensor 3 is \$375. © 2019 Medtronic Australasia Pty Ltd. WHY THE MINIMED™ 670G

THE WORLD'S FIRST SELF-ADJUSTING INSULIN PUMP SYSTEM*

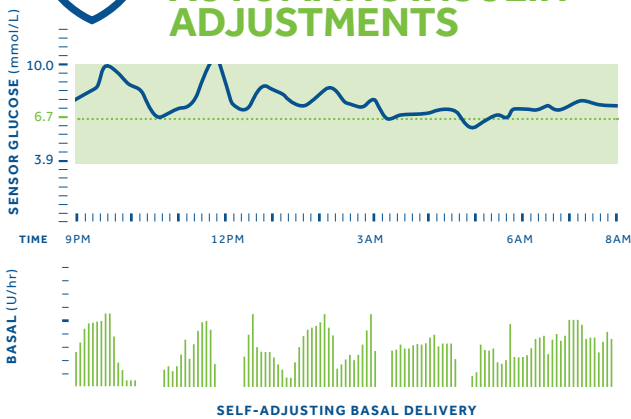

The MiniMed 670G System - powered by SmartGuard™ Technology - uses our most advanced CGM technology - the Guardian™ Sensor 3 - to help increase your time in range with fewer highs and lows.

A new and improved CGM experience – including:

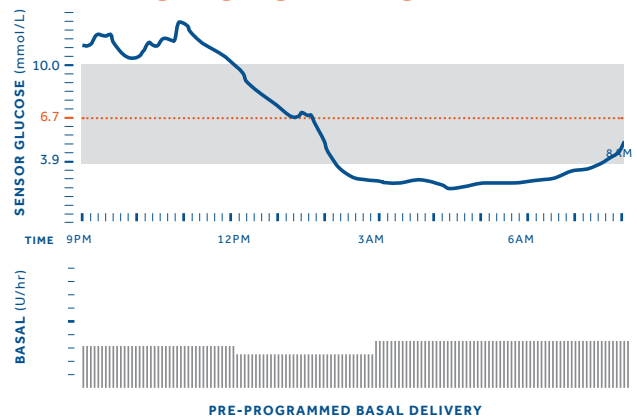

- **SmartGuard Auto Mode** which automatically adjusts basal insulin delivery
- **Predictive alerts** to give you a heads up of when you are going high or low
- **Suspend before low** gives you an extra level of protection
- **Improved sensor accuracy** with the Guardian™ Sensor 3^{2,3}
- **CareLink™ Reports** to help track improvements in your time in range
